

To convert feet to meters multiply by 3.048
To convert meters to feet multiply by 3.2808

Mapped, edited, and published by the Geological Survey and the National Ocean Survey and the National Ocean Survey Control by USGS and NOS/NOAA
Orthophotomaps prepared by the Geological Survey from aerial photographs taken April 18, 1974. Topography by planimetric surveys 1957; revised from aerial photographs taken 1974. Field checked 1975. Map edited 1979. Supersedes topographic map dated 1957.
Bathymetry compiled by the National Ocean Survey from tide-coordinated hydrographic surveys. Soundings compiled from NOS 11509 and 11512. This information is not intended for navigational purposes.
Mean low water (dotted) line and mean high water (solid) line compiled by NOS from tide-coordinated aerial photographs. Apparent shoreline (outer edge of vegetation) shown by photoimagery.
Projection and 10,000-foot grid ticks: Georgia coordinate system, east zone (transverse Mercator) grid, zone 17 1000-meter Universal Transverse Mercator grid, zone 17 1927 North American datum. To place on the predicted North American datum 1983 move the projection lines 17 meters south and 17 meters west as shown by dashed corner ticks.
There may be private inholdings within the boundaries of the National and State reservations shown on this map.

UTM GRID AND 1979 MAGNETIC NORTH DECLINATION AT CENTER OF SHEET

Survey Number	Survey Date	Survey Scale	Survey Line Sloping (North, Miles)
H-5528	1934	1:10,000	05-08
H-5529	1934	1:10,000	02-03
H-5530	1934	1:10,000	02-05
H-5531a	1934	1:10,000	01-04
