

Produced by the United States Geological Survey Topography compiled 1951. Planimetry derived from imagery taken 1973 and other sources. Photoinsected using imagery taken 1998; no major culture or drainage changes observed. Public Land Survey System and survey control current as of 1953. Boundaries verified 2002. Information shown in purple may not meet USGS content standards and may conflict with previously mapped contours. Hydrography from USC&GC chart 6405. North American Datum of 1927 (NAD 27). Projection and 1 000-meter grid: Universal Transverse Mercator, zone 10 100 000-foot ticks: Washington Coordinate System of 1927 (north zone). North American Datum of 1983 (NAD 83) is shown by dashed corner ticks. The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are obtainable from National Geodetic Survey NADCON software. There may be private inholdings within the boundaries of the National or State reservations shown on this map.
