

Prepared by the U.S. Army Topographic Command (CGS), Washington, D.C. Compiled in 1955 by photogrammetric methods and from United States quadrangles 1:50,000, 1952. Planimetry revised from aerial photographs taken 1952. Photographs first annotated 1954. Revised by the U.S. Geological Survey, 1970.

Transverse Mercator Projection, 10,000-meter Universal Transverse Mercator grid, zone 11, 100,000-foot grid ticks based on Nevada coordinate system, east zone, 1927 North American Datum. To place on the predicted North American Datum 1983, move the projection lines 7 meters north and 74 meters east.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.

There may be private inholdings within the boundaries of the National or State reservations shown on this map.
