

Produced by the United States Geological Survey and the National Ocean Service in cooperation with State of Georgia agencies
Control by USGS, NOS/NOAA and USCE
Orthophotomaps prepared by the Geological Survey from aerial photographs taken April 19, 1974. Topography by plane-table surveys 1958; revised from aerial photographs taken February 1974. Field checked 1975. Map edited 1981. Supersedes topographic map dated 1958.
Bathymetry compiled by the National Ocean Service from tide-coordinated hydrographic surveys.
This information is not intended for navigational purposes. Mean lower low water (dotted) line and mean high water (solid) line compiled by NOS from tide-coordinated aerial photographs. Apparent shoreline (outer edge of vegetation) shown by photography.
Projection: Florida coordinate system (transverse Mercator) 10,000-foot grid ticks based on Florida coordinate system east zone, and Georgia coordinate system, east zone 17 1927 North American Datum.
North American Datum of 1983 (NAD 83) is shown by dashed corner ticks.
The values of the shift between NAD 27 and NAD 83 for 7.5-minute intersections are given in USGS Bulletin 1875.
There may be private inholdings within the boundaries of the National State reservations shown on this map.
