GEOLOGICAL SURVEY

1993

Produced by the United States Geological Survey and the National Ocean Survey

Compiled from USGS 1:24 000-scale topographic maps dated 1972 and 1974. Planimetry revised from aerial photographs taken 1990 and other source data. Revised information not field checked. Map edited 1993

1927 North American Datum (NAD 27). Projection and 10 000-meter grid: Universal Transverse Mercator, zone 19

25 000-foot ticks: Massachusetts coordinate system, mainland zone

The difference between NAD 27 and North American Datum of 1983 (NAD 83) is too small to show at this scale. The values of the shift between the datums for 7.5-minute intersections are given in USGS Bulletin 1875

Offshore projection survey data, shown in red, furnished by the Minerals Management Service. Heavy lines indicate limits of Outer Continental Shelf, Official Protraction Diagrams dated October 31, 1974 and April 15, 1979. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the OCS Official Protraction Diagrams available from the Minerals Management Service
