Produced by the United States Geological Survey and the National Ocean Service  
Control by USGS, NOS/NOAA, and Georgia Geodetic Survey  
Orthophotomaps prepared by the Geological Survey from aerial photographs taken April 19, 1974. Topography by the National Ocean Service by planimetric survey 1954, revised by USGS from aerial photographs taken 1974. Field checked 1975.  
Map edited 1979. Supersedes NOS topographic map dated 1956.  
Bathymetry compiled by the National Ocean Service from tide-coordinated hydrographic surveys.  
Soundings compiled from NOS 11506.  
This information is not intended for navigational purposes.  
Mean lower low water (dotted) line and mean high water (solid) line compiled by NOS from tide-coordinated aerial photographs.  
Apparent shoreline (outer edge of vegetation) shown by photoimagery.  
Projection and 10,000-foot grid ticks: Georgia coordinate system, east zone (transverse Mercator).  
1000-meter Universal Transverse Mercator grid, zone 17.  
1927 North American Datum.  
To place on the predicted North American Datum 1983, move the projection lines 20 meters south and 17 meters west as shown by dashed corner ticks.  
There may be private inholdings within the boundaries of the National or State reservations shown on this map.
