

PRODUCED BY THE U. S. GEOLOGICAL SURVEY
Base map prepared by Defense Mapping Agency by photogrammetric methods and from 1:24,000 and 1:62,500-scale maps dated 1940-1955. Field checked 1954. Revised by the U. S. Geological Survey from aerial photographs taken 1970 and other source data. Revised information not field checked. Map edited 1980.
Area covered by dashed light-blue pattern is subject to controlled inundation.
Transverse Mercator Projection, 10,000-meter Universal Transverse Mercator grid, zone 13. 100,000-foot grid ticks based on New Mexico coordinate system, central and west zones, 1927 North American Datum. To place on the predicted North American Datum 1983, move the projection lines 1 meter north and 53 meters east.
Certain land grant name and boundaries are omitted to avoid congestion.
Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.
There may be private holdings within the boundaries of the National or State reservations shown on this map.
