

Prepared by the Defense Mapping Agency Topographic Center, Washington, D. C. Compiled in 1955 by photogrammetric methods and from 1:48,000 and 1:125,000-scale maps dated 1951-55. Photographs field annotated 1955. Revised by the U. S. Geological Survey from aerial photographs taken 1976 and other source data. Revised information not field checked. Map edited 1978.

Area covered by dashed light-blue pattern is subjected to controlled inundation.

100,000-foot grids based on Idaho coordinate system, central and east zones, and Montana coordinate system, south zone.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.
