

Prepared by the U.S. Army Topographic Command (TPCO), Washington, D.C. Compiled in 1962 by photogrammetric methods and from United States quadrangles, 1:24,000, 1:25,000, and 1:62,500, 1947-61. Planimetry revised in part from aerial photographs taken 1951-60. Map field checked 1962. Revised by the U.S. Geological Survey 1969.

Area covered by dashed light-blue pattern is subject to controlled inundation. Certain and grant names and boundaries are omitted to avoid congestion. 100,000-foot grid based on California coordinate system, zone 3. Location of geodetic control established by government agencies is shown on corresponding 1:250,000 scale Geostic Control Diagram.
