

U.S.G.S. FILE COPY TOPOGRAPHIC DIVISION

Prepared by the U.S. Army Topographic Command (GUSX), Washington, D.C. Compiled in 1955 from United States quadrangles, 1:24,000, 1:25,000, 1:50,000, and 1:62,500, 1922-1953; USCG&S charts, 1941. Planimetry revised from aerial photographs taken 1949-50. Map field checked 1956. Revised by the U.S. Geological Survey 1969.

Selected hydrographic data compiled from USC&GS charts. This information is not intended for navigational purposes.

Area covered by dashed light-blue pattern is subject to controlled inundation.

100,000-foot grids based on California coordinate system, zones 5 and 4.

10,000-meter Universal Transverse Mercator grid ticks, zone 10, shown in blue.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.

**LEGEND**

Figures in red denote approximate distances in miles between stars.
