

THE TOPOGRAPHIC MAPS OF THE UNITED STATES

The United States Geological Survey is making a series of general topographic maps to cover the United States. The first map in this series is the Santa Catalina North Quadrangle, California-Los Angeles Co. This map is the first of a series of maps to be published in the 7.5 minute series. The maps in this series are published in sheets that measure about 10 by 10 miles. Each sheet covers an area of about 100 square miles. The maps in this series are published in sheets that measure about 10 by 10 miles. Each sheet covers an area of about 100 square miles. The maps in this series are published in sheets that measure about 10 by 10 miles. Each sheet covers an area of about 100 square miles.

Mapped by the Army Map Service  
Edited and published by the Geological Survey  
Control by USC&GS  
Topography from aerial photographs by stereoplotting  
Aerial photographs taken 1943. Field check 1943  
Polyconic projection. 1927 North American datum  
10,000-foot grid based on California coordinate system,  
zone 6  
No distinction is made between dwellings, barns,  
commercial and industrial buildings

TRUE NORTH  
MAGNETIC NORTH  
APPROXIMATE MEAN  
DECLINATION, 1943
