

Prepared by the U.S. Army Topographic Command (TPCOC), Washington, D.C. Compiled in 1961 from United States quadrangles, 1:24,000, 1:25,000, 1:31,680, and 1:50,000, 1932-58 USGS Charts (1940-52). Planimetry revised in part from aerial photographs taken 1957-58. Map field checked 1962. Revised by the U.S. Geological Survey 1969.

Selected hydrographic data compiled from USCGS Charts. This information is not intended for navigational purposes.

Area covered by dashed light-blue pattern is subject to controlled inundation.

100,000-foot grids based on Connecticut coordinate system, and New York coordinate system, east and Long Island zones.

10,000-meter Universal Transverse Mercator grid ticks, zone 18, shown in blue.

Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram.
