

V501, EDITION 2
Prepared by the U.S. Army Topographic Command (AJEE), Washington, D.C. Compiled in 1954 by photogrammetric methods from aerial photographs taken 1952. Photographs field annotated 1953. Revised by the U.S. Geological Survey 1970.
Area covered by dashed light blue pattern is subject to controlled inundation
Location of geodetic control established by government agencies is shown on corresponding 1:250,000-scale Geodetic Control Diagram

POPULATED PLACES

Over 500,000
100,000 to 500,000
25,000 to 100,000
5,000 to 25,000
1,000 to 5,000
Less than 1,000

GRID ZONE DESIGNATION
16S

300,000 M SQUARE IDENTIFICATION

BN CN DM
BM CM DM

TO GIVE A STANDARD REFERENCE ON THIS SHEET TO THE NEAREST 100 METERS
SAMPLE POINT: 16S000

1. Read letters identifying 100,000 meter square in which the point lies.
2. Read the first two letters of the grid zone designator and the first two letters of the grid zone designator to the left of the point and read the last two letters of the grid zone designator to the right of the point.
3. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
4. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
5. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
6. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
7. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
8. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
9. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
10. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
11. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
12. Read the last two letters of the grid zone designator to the left of the point and the last two letters of the grid zone designator to the right of the point.
