GEOLOGICAL SURVEY

1981

Produced by the United States Geological Survey in cooperation with the Soil Conservation Service. Compiled from USGS 1:24 000-scale topographic maps dated 1955-1973 and orthophotomaps dated 1972-1973. Planimetry revised from aerial photographs taken 1979 and other source data. Revised information not field checked. Map edited 1981. Projection and 10 000-meter grid, zone 17, Universal Transverse Mercator. 25 000-foot grid ticks based on Florida coordinate system, east zone, 1927 North American Datum. To place on the predicted North American Datum 1983 move the projection lines 40 meters south and 22 meters west. Offshore projection survey data, shown in red, compiled by the Bureau of Land Management. Heavy lines indicate limits of BLM Outer Continental Shelf Official Protection Diagram dated October 24, 1978. The protections on this map are not for Federal leasing purposes; for such purposes, refer to the 1:250 000-scale OCS Official Protection Diagrams available from the Bureau of Land Management. There may be private inholdings within the boundaries of the National or State reservations shown on this map.
