

GRID ZONE DESIGNATION: 19T	TO GIVE A STANDARD REFERENCE TO THIS SPOT TO NEAREST 1000 METRES
100,000 M ² SQUARE IDENTIFICATION	SAMPLE POINT - AUDIT
 <p>IGNORE the SMALLER figures of any grid number; these are for identification of the full coordinate ONLY the LARGER figure of any grid number is used for location example: 500000</p>	<ol style="list-style-type: none"> 1 Read letters identifying 100,000 metre squares in which the point lies 2 Locate first VERTICAL, grid line to LEFT of point and read LARGE figure to the left of the line (the one in the top or bottom of the line) 3 Locate first HORIZONTAL grid line. Estimate tens from read LARGE figure to point and add to the line number 4 Moving from left to right or right to right, across, or on the line itself. Estimate tens from grid line to point.
