The diagram illustrates the relationship between Magnetic North (MN) and Grid North (GN). A vertical line represents the North direction, with a star at the top. A horizontal line intersects this vertical line. To the left of the vertical line, the distance from the horizontal line to the top of the vertical line is labeled '4° 29' 80 MILS'. To the right of the vertical line, the distance from the horizontal line to the bottom of the vertical line is labeled '0° 18' 5 MILS'. The top of the vertical line is labeled 'MN' and the bottom is labeled 'GN'.
